INTRODUCTION

his survey of human resource practices represents the selfreported descriptions of salaries, wages, and benefits from 113 manufacturing and nonmanufacturing companies and organizations within 11 counties in northeastern Indiana. Reports have been divided into two categories representing companies large in size (annual sales volume of at least \$25 million) and companies relatively small in size (sales less than \$25 million).

Participation in the survey is voluntary. While the report accurately reflects data given by participants, it does not claim to be a statistically accurate report of all pay and benefits practices in the 11 county region. It may be useful to also consider federal and state wage reports.

This publication includes reports of wages and benefits. It begins with survey results from all respondents and follows with separate reports for large and small companies. The wage reports give an average minimum pay rate, average actual pay rate and average maximum pay rate for 130 position titles within the counties. Benefit reports express typical as well as average practices since averages may be skewed by numbers that are significantly higher or lower than what is most common.

This report also includes an expanded supplemental data section which provides more information about the work and labor force in the 11 county region. The mobility of the workforce is illustrated by reports about commuting patterns for the counties. Each section also reports on union representation and on anticipated hiring, layoff and wage activity for 2018 and 2019.

This analysis was supported by the Adams County Economic Development Corporation.; DeKalb County Economic Development Partnership; Greater Fort Wayne Incorporated; Huntington County Economic Development; Kosciusko County Economic Development Corporation; LaGrange County Economic Development Corporation; Noble County Economic Development Corporation; Steuben County Economic Development Corporation; Grow Wabash County; Wells County Economic Development Corporation; and Whitley County Economic Development Corporation. Further supporting sponsors include Duke Energy, Indiana Michigan Power, NIPSCO, Wabash Valley Power, Indiana Municipal Power Agency, Northeast Indiana Works, the Regional Chamber, the Northeast Indiana Regional Partnership, and the Building Contractors Association of Northeast Indiana.

Both electronic and hard copies of this survey report are available and will be distributed to participating companies. Additional copies may be purchased for \$200 from a local participating EDC office.

If you have questions or comments or would like to order additional copies of this publication, please contact your member of the Northeast Indiana Regional Partnership listed at right:

PARTICIPANT Classifications

Small Companies: Participants reporting a sales volume of less than \$25 million. The 2018 Survey includes information from 49 such companies.

Large Companies: Participants reporting a sales volume of \$25 million or more. The 2018 Survey includes information from 64 such companies.

WAGES Section

Wage and salary figures are reported for 130 different positions, as described on Pages 86 through 89. The figures represent data as of Sept. 21, 2018

Number of Workers: The total number of individuals for whom data was reported for each position.

Average Minimum Rate: The lowest amount an organization would pay for a position. This figure represents the average of all minimum figures reported for each position.

Average Actual Rate: The average of actual salary or wage participants pay for each position. The published figure represents the average of all actual wages or salaries for each position.

Average Maximum Rate: The highest amount an organization pays for a position. This figure represents the average of all maximum figures reported for each position.

Hourly and Salary: Wages are reported as annual salaries or hourly amounts based on usual compensation practices for each position. They do not mean that employees in those positions are classified as exempt or nonexempt.

When Considering the Data: Wages are those actually reported by participating companies and organizations. The survey is not necessarily a statistically accurate report of average compensation practices in the region.

BENEFITS Section

Participants were asked to report their benefits packages

for full-time workers. Benefits are reported for the participant classifications described above. Benefits programs may differ between hourly and salaried personnel; therefore, benefits data is reported separately for each group. In cases where benefits differed within the same classification of employees, respondents were asked to report average or most common practices.

BENEFITS Section Definitions

Average: This represents the average (statistical mean) benefit, practice or contribution among all companies or organizations reporting in each participant classification.

Typical: The most common (statistical mode) benefit, practice or contribution among all companies or organizations reporting in each participant classification.

Hourly and Salary: Unlike the wage section, benefits reports reflect the difference between exempt and nonexempt classifications.

Confidentiality and Missing Data

Information used in this survey is self-reported by the participating organizations and is only as accurate and complete as provided by them. Not all participants provided data for all sections so totals may be inconsistent across the survey.

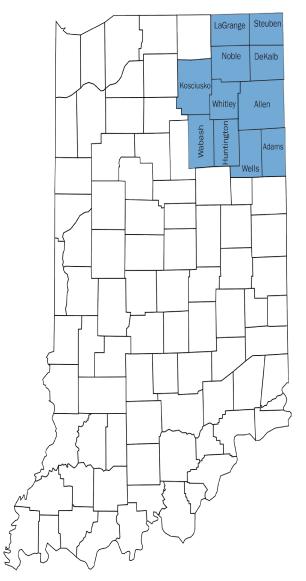

To protect the confidentiality of the participants, wage and benefit information is not disclosed for occupations or benefit categories unless it is provided by at least two sources. These entries are indicated with an asterisk (*). If data is missing from one section, similar information may be found in one of the other sections of the report.

Survey Preparation

The survey is conducted online and the report prepared by Two Things LLC. For more information, go to contact **twothingsllc@gmail.com**.

ADMINISTRATIVE/EXECUTIVE

General Manager/President: Plans, directs or coordinates the operations of companies. Duties and responsibilities include formulating policies, managing daily operations and planning the use of material and human resources. Includes owners and managers who head small business establishments whose duties are primarily managerial. Chief Financial Officer: Senior-most executive responsible for financial control and planning of a firm or project.

Vice President of Sales: Responsible for establishing sales targets to meet the company objectives. Responsible for developing strategic sales plans based on company goals that will promote sales growth and customer satisfaction for the organization.

Director of Human Resources: Has ultimate responsibility for all people based activity within an organization from both an operational and strategic perspective.

Director of Engineering: Plans and directs all aspects of engineering activities within an organization. Ensures all engineering projects, initiatives, and processes are in conformance with organization's established policies and objectives.

Director of Procurement: Defines policies and procedures that form the basis for all interaction between the company and suppliers.

FINANCE

Chief Financial Manager: Plans, directs, and coordinates accounting, investing, banking, insurance, securities, and other financial activities of a branch, office, or department of an establishment.

Controller: Overall responsibility for managing and directing the corporation's accounting and tax functions. Responsible for all internal and external financial reporting, all internal control and accounting, all tax preparation and reporting functions.

Credit Manager: Establishes credit guidelines, extends credit to new customers and oversees collections.

Accountant: Responsibilities may include analyzing data, formulating budgets, preparing financial statements, compiling information for reports and evaluating general accounting systems.

Accounts Payable/Receivable Clerk: Prepares and maintains records of financial transactions related to bills due and incoming payments.

Bill / Account Collector: Locates and notifies customers of delinquent accounts by mail, telephone or personal visit to solicit payment. Duties include receiving payments and posting amounts to customer accounts; preparing statements to credit department if customer fails to respond; and keeping records of collection and status of accounts.

Payroll Clerk: Performs duties related to the preparation of time cards or work logs, computation of paychecks and the maintenance of payroll records.

HUMAN RESOURCES

Human Resources Manager: Areas of responsibility may include recruitment, selection, training, compensation and compliance.

Benefits Specialist: Responsible for administration of pension and savings plans, retirement calculations, computerized database development, report generation, assisting in coordination of group benefits programs and specializing in group insurance, pensions and cash compensation programs.

HR Generalist: Administers human resource policies and procedures that cover two or more functional areas. Collects and analyzes human resource data and then makes recommendations to management.

Recruitment Specialist: Recruits and places workers.

Training and Development Specialist: Conducts training and development programs for employees.

SALES & CUSTOMER SERVICE

Advertising/Marketing/Public Relations Manager: Directs overall marketing policy and strategy, determines demand for products and services, identifies potential customers and directs publicity programs. Oversees account, creative and media-service departments.

Sales Manager/Supervisor: Directs sales program, maintains contact with dealers and distributors, and directs sales representatives. Coordinates sales distributions by establishing sales territories, quotas and goals and establishes training programs for sales representatives.

Call Center Manager: Responsible for the overall daily operation of the call center. Duties include staff supervision, training, forecasting and monitoring sales and call volumes. Managers may also be responsible for all technology issues/upgrades and using technology to meet the sales goals.

Customer Service/Telephone Representative: Primarily responsible for responding to inbound phone calls. Assist customers over the telephone or via the Internet in making product decisions, resolving service issues and general sales. Responsible for entering all customer orders and service issues into the computer.

Order and Billing Clerk: Order clerk takes down and processes orders for merchandise, goods, and services. Ensures all data is accurate, including credit card information. Processes order and sends out receipt. Billing clerk is accountable for creating invoices and credit memos, issuing them to customers by all necessary means, and updating customer files.

Product specialist: Combines sales, marketing and technical skills to design, promote and sell a product for an organization. These professionals are involved with a product's entire life cycle to ensure optimal sales results for an organization's profitability.

Sales Representative/Account Executive: Markets company products and services, takes orders and resolves problems. Has an in-depth knowledge of customers' organization and demands. Acts as a solutions provider and has an ongoing, long-term relationship with a defined customer base. Maintains quality assurance with, and introduces new products and services to customer base. Can be either based as "inside" or "outside" representative.

OFFICE SUPPORT

Office Manager: Supervises and coordinates the activities of clerical and administrative support workers.

Administrative Services Manager: Plans, directs and coordinates supportive services of an organization. Specific responsibilities vary, but administrative service managers typically maintain facilities and supervise activities that include record keeping, mail distribution, and office upkeep.

Executive Secretary / Administrative Assistant: Provides highlevel administrative support by conducting research, preparing statistical reports, handling information requests and performing clerical functions such as preparing correspondence, receiving visitors, arranging conference calls and scheduling meetings. May also train and supervise lower-level clerical staff.

Data Entry Clerk: Operates data entry equipment to record and/or verify data from source documents. Corrects errors. Follows a generally standardized pattern of operations.

File Clerk: Files correspondence, cards, invoices, receipts and other records in alphabetical or numerical order or according to the filing system used. Locates and removes material from file when requested. Mail Clerk: Distributes and collects incoming mail and processes outgoing mail. Responsibilities include determining, affixing and recording postage on registered mail and packages.

Receptionist: Answers telephone calls and personal inquiries, directs calls and visitors to appropriate parties and performs basic clerical tasks. May operate a switchboard.

Secretary: Performs routine clerical and administrative functions such as shorthand, dictation, typing, scheduling appointments, handling travel arrangements, answering routine correspondence and telephone calls.

Teller: Receives and pays out money, as well as accurately keeps records of money and negotiable instruments involved in a financial institution's various transactions.

Typist and Word Processor: Responsible for data entry and information processing utilizing machines such as typewriters or computers. Prepares reports and correspondence, letters, research, and other materials.

TECHNICAL

Chief Information Officer: Directs, plans organizes and controls all activities of the informations systems department and ensures the effective, efficient and secure operation of all automated data processing systems.

Engineering Manager: Plans, directs or coordinates activities in such fields as architecture and engineering or research and development in these fields.

Information Technology Manager: Plans, directs or coordinates activities in such fields as electronic data processing, information systems, systems analysis and computer programming.

CAD Technician: Creates, modifies and maintains various technical drawings including construction renovation blueprints, special project drawings, etc. Works from sketches, prints or verbal instructions in accordance with established standards. May perform field verifications.

Computer Operator: Loads equipment, starts and operates computer and executes runs. Oversees the continuous operation of the electronic/data process facilities.

Computer Programmer: Converts project specifications and statements of problems and procedures to detailed logical flow charts for coding into computer language. Develops and writes computer programs to store, locate and retrieve specific documents, data and information. May program web sites.

Computer Support Specialist: Provides technical assistance to computer system users. Answers questions or resolves computer problems for clients in person, via telephone or from remote locations. May provide assistance concerning the use of computer hardware and software, including printing, installation, word processing software, electronic mail and operating systems.

Designer: Develops and designs manufactured products, such as cars, home appliances and children's toys. Combines artistic talent with research on product use, marketing and materials to create the most functional and appealing product design.

Estimator: Analyzes blueprints, specifications, proposals and other documentation to prepare time, cost and labor estimates for products, projects or services applying knowledge of specialized methodologies, techniques, principles or processes. Reviews data, prepares itemized lists, computes cost factors, prepares estimates and consults with clients, vendors or other individuals.

Graphic Designer: Designs or creates graphics to meet specific commercial or promotional needs, such as packaging, displays or logos. May use a variety of mediums to achieve artistic or decorative effects. Laboratory/Engineering Technician: Conducts acceptance testing of numerous control systems per test specifications and proficient in several programs/processes. Alters test equipment requiring knowledge of electronic/mechanical theory pertinent to the applicable work. Analyzes and troubleshoots complex engineering data. Recognizes and resolves control and test issues beyond those specified in a test plan. Configures test set-ups for engineering investigations and document test status on a daily basis or as required by program. **Electrical or Electronic Technician:** Helps engineers design and develop computers, communications equipment, medical monitoring devices, navigational equipment, and other electrical and electronic equipment. Often works in product evaluation and testing, using measuring and diagnostic devices to adjust, test, and repair equipment.

Engineer: (not otherwise specified) Engineers work in a variety of fields to analyze, develop and evaluate large-scale, complex systems. This can mean improving and maintaining current systems or creating brand new projects. Engineers will design and draft blueprints, visit systems in the field and manage projects.

Chemical Engineer: Designs equipment and develops processes for manufacturing chemicals and related products utilizing principles and technology of chemistry, physics, mathematics, engineering and related physical and natural sciences: Conducts research to develop new and improved chemical manufacturing processes.

Electrical Engineer: Designs, develops, tests and supervises the manufacturing of electrical equipment.

Industrial Engineer: Devises efficient systems that integrate workers, machines, materials, information, and energy to make a product or provide a service. Finds ways to eliminate wastefulness in production processes.

Manufacturing Engineer: Establishes standards for manufacturing operations in order to reduce and control costs.

Materials Engineer: Develops, processes and tests materials used to create a wide range of products. Studies the properties and structures of metals, ceramics, plastics, composites, nanomaterials and other substances to create new materials that meet certain mechanical, electrical, and chemical requirements.

Mechanical Engineer: Performs engineering duties in planning and designing tools, engines, machines and other mechanically functioning equipment. Oversees installation, operation, maintenance and repair of such equipment as centralized heat, gas, water and steam systems.

Quality Engineer: Works in manufacturing plants, taking responsibility for the quality of a company's products.

Network and Computer Systems Administrator: Installs, configures and supports an organization's local area network (LAN), wide area network (WAN) and Internet system or a segment of a network system. Maintains network hardware and software. Monitors network to ensure network availability to all system users and performs necessary maintenance to support network availability.

System Analyst: Analyzes problems, prepares specifications and proposes appropriate data processing procedures to resolve problems. **IT Support Specialist:** Provides technical assistance to computer users. Answers questions or resolves computer problems for clients in person, via telephone, or electronically.

Technical Support Specialist: Uses knowledge and skills to solve computer problems and enable computer technology to meet organization's needs.

IT Hardware Installer/Maintenance Professional: Installs and maintains computer hardware.

Web Developer: Designs and creates websites and is responsible for the look of the site and for the site's technical aspects, such as its performance and capacity. May also create content for the site.

PRODUCTION

Operations/Plant Manager: Plans, directs or coordinates the work activities and resources necessary for manufacturing products in accordance with cost, quality and quantity specifications.

Materials Manager: Areas of responsibility may include purchasing, shipping, receiving and warehousing of raw materials.

Production Manager/Foreman: Supervises line work such as assembly, warehousing or shipping and receiving. Plans and assigns work, recommends tools and methods and assists in problem resolution.

Purchasing Manager: Plans, directs or coordinates the activities of buyers, purchasing officers and related workers involved in purchasing materials, products and services. Areas of responsibility may include selection of vendors, insuring quality of supplies and services and acceptability of prices.

Quality Control Manager: Areas of responsibility may include auditing and evaluating quality controls and insuring established standards of quality.

Group Leader: Directly supervises and coordinates the activities of production and operating workers, such as inspectors, precision workers, machine setters and operators, assemblers, fabricators, and plant and system operators

Assembler, skilled: Assembles, adjusts, and fits parts of production or completes products using tools. Requires use of judgment to make decisions and may require measuring, calculating, reading or estimating. Often has specific qualifications and usually requires intellectual reasoning and problem-solving skills. It typically takes six months to a year or more to learn a skilled job.

Assembler, unskilled: Assembles, adjusts, and fits parts of production or completes products using tools. Involves simple tasks and doesn't usually require one to exercise judgment. It typically requires only a month or less to learn.

Buyer/Purchasing Agent: Purchases materials, supplies or services and negotiates prices. Also establishes and maintains relationship with vendors.

CNC Machinist: Operates computer numerical control machines to fabricate parts. The CNC machinist loads parts in the machine, cycles machine and detects malfunctions in machine operations, such as worn or damaged cutting tools. The position runs production lots, communicates with co-workers regarding productions runs, and maintains a safe, organized and clean work environment.

CNC Programmer: Develops programs to control machining or processing of metal or plastic parts by automatic machine tools, equipment, or systems.

Cutting, Punching and Press Machine Operator: Sets up, operates or tends machines to saw, cut, shear, slit, punch, crimp, notch, bend or straighten metal or plastic material.

Drilling and/or Boring Machine Operator: Sets up, operates or tends drilling machines to drill, bore, ream, mill, or countersink metal or plastic work pieces

Extruding and/or Drawing Machine Operator: Sets up, operates, or tends machines to extrude or draw thermoplastic or metal materials into tubes, rods, hoses, wire, bars, or structural shapes

Forging Machine Operator: Sets up, operates, or tends forging machines to taper, shape, or form metal or plastic parts

General Laborer: Performs manual or physical duties as requested, requiring limited skill or training.

Grinding, Lapping, Polishing and Buffing Machine Tool Operator: Set up, operate or tend grinding and related tools that remove excess material or burrs from surfaces, sharpen edges or corners, or buff, hone or polish metal or plastic work pieces.

Lathe and Turning Machine Tool Operator: Sets up, operates or tends lathe and turning machines to turn, bore, thread, form or face metal or plastic materials, such as wire, rod or bar stock.

Manual Machinist: Sets up and operates a variety of machine tools to produce precision parts and instruments. Includes precision instrument makers who fabricate, modify or repair mechanical instruments. May also fabricate and modify parts to make or repair machine tools or maintain industrial machines, applying knowledge of mechanics, shop mathematics, metal properties, layout and machining procedures.

Mold Maker: Sets up, operates or tends metal or plastic molding,

casting or coremaking machines to mold or cast metal or thermoplastic parts or products.

Certified Painter: Has certified training and paints, and coats, often with machines, a wide range of products.

Painting/Spraying Machine Operator: Sets up, operates or tends machines to coat or paint any of a wide variety of products.

Plastic Processing Machine Operator: Sets up and operates production related plastic processing machinery to produce quality parts.

Production Control Worker: Coordinates and expedites the flow of work and materials within or between departments of an establishment according to production schedules. Duties include reviewing and distributing production, work and shipment schedules; conferring with department supervisors to determine progress of work and completion dates; and compiling reports on progress of work, inventory levels, costs and production problems.

Printing Press Operator: Sets up and operates large, high volume commercial printing presses.

Print Binding/Finishing: Bind books and other publications or finish printed products by hand or machine. May set up binding and finishing machines.

Quality Control Inspector/Tester: Inspects, tests, sorts, samples or weighs non agricultural raw materials or processed, machined, fabricated or assembled parts or products for defects, wear and deviations from specifications. May use precision measuring instruments and complex test equipment.

Sewing Machine Operator: Operates or tends sewing machines to join, reinforce, decorate, or perform related sewing operations in the manufacture of garment or nongarment products

Tool & Die Maker: Analyzes specifications, lays out metal stock, sets up and operates machine tools and fits and assembles parts to make and repair dies, cutting tools, jigs, fixtures, gauges, machinists' hand tools and die try outs.

Welder, Cutter, Solderer & Brazer: Uses hand-welding, flamecutting, hand soldering or brazing equipment to weld or join metal components or to fill holes, indentations or seams of fabricated metal products.

Woodworking Specialist: Works in a woodworking shop engaged in tasks such as wood furniture manufacturing.

MAINTENANCE & REPAIR

Manager of Mechanics, Installers & Repairers: Supervises and coordinates the activities of mechanics, installers and repairers.

Maintenance Mechanic: Diagnoses malfunctions, orders replacement parts and insures maintenance, repair and smooth functioning of the machinery and equipment.

Maintenance & Repair Worker: Keeps machines, mechanical equipment or the structure of an establishment in repair.

General Millwright: Installs, dismantles, or move machinery and heavy equipment according to layout plans, blueprints, or other drawings.

CONSTRUCTION

Construction Manager: Directly supervises and coordinates activities of construction or extraction workers.

Bricklayer/Stonemason/Concrete Finisher: Uses bricks, concrete blocks, concrete, and natural and manmade stones to build walls, walkways, fences, and other masonry structures.

Carpenter: Constructs and repairs building frameworks and structures—such as stairways, doorframes, partitions, rafters, and bridge supports—made from wood and other materials. Also may install kitchen cabinets, siding, and drywall.

Construction Laborer: Performs tasks involving physical labor at construction sites. May operate hand and power tools of all types: air hammers, earth tampers, cement mixers, small mechanical hoists, surveying and measuring equipment, and a variety of other equip

ment and instruments. May clean and prepare sites, dig trenches, set braces to support the sides of excavations, erect scaffolding, and clean up rubble, debris and other waste materials. May assist other craft workers.

Electrician: Installs, maintains and repairs electrical wiring, equipment and fixtures.

WAREHOUSING, TRANSPORTATION AND DISTRIBUTION

Warehousing, Transportation and Distribution Manager: Plans, directs or coordinates transportation, storage or distribution activities in accordance with governmental policies and regulations. Includes logistics managers.

Supervisor/Manager of Material Movers: Supervises and coordinates the activities of helpers, laborers or material movers.

Inventory Control Coordinator: Manages inventory and maintains levels required on a daily basis to meet distribution demands.

Driver, Truck Heavy and Tractor-Trailer: Drives a tractor-trailer combination or a truck with a capacity of at least 26,000 GVW, to transport and deliver goods, livestock or materials in liquid, loose or packaged form. May be required to unload truck. May require use of automated routing equipment. Requires commercial drivers' license. Driver, Truck Light or Delivery Services: Drives a truck or van with a capacity of less than 26,000 GVW, primarily to deliver or pick up merchandise or to deliver packages within a specified area. May require use of automatic routing or location software. May load and unload truck.

Driver/Sales Worker: Picks up and drops off packages and materials within a defined region or urban area. Most commonly they transport merchandise from a distribution center to businesses or households.

Heavy Equipment/Forklift Operator: Uses machinery to transport various objects, including goods around a warehouse and off of and onto trucks, railcars and other means of transportation. Also move materials at construction sites and in mines.

Inventory Control Coordinator: Analyzes and coordinates an organization's supply chain. Manages how a product is acquired, distributed, allocated and delivered. Also known as logistician.

Material Handler: Manually moves freight, stock or other materials or performs other unskilled general labor.

Picker and Packer: Packs by hand a wide variety of products and materials.

Shipping, Receiving & Traffic Clerk: Verifies and keeps records on incoming and outgoing shipments. Prepares items for shipment. Duties include assembling, addressing, stamping and shipping merchandise or material; receiving, unpacking, verifying and recording incoming merchandise or material; and arranging for the transportation of products.

Quality Monitor: Verifies that materials and finished products meet quality standards before distribution.

Safety Technician: Ensures safety rules and regulations are communicated and enforced. Maintains documentation of procedures.

LEGAL

Attorney: Advises and represents individuals, businesses, and government agencies on legal issues and disputes. Prepares and evaluates contracts and other legal documents.

Paralegal: Researches law, investigates facts and prepares documents to assist attorneys.

Regulatory Compliance Analyst: Makes sure businesses operate within legal boundaries and comply with appropriate regulations and required documentation and record keeping.

Records Coordinator: Makes sure records are accurate and up to date and are stored, preserved and maintained as required.

MEDICAL

Certified Nurse Assistant: Helps provide basic care for patients in hospitals and residents of long-term care facilities.

Counselor/Human Service Worker: Provides client services, including support for families, in a wide variety of fields, such as psychology, rehabilitation, and social work.

Medical Assistant: Performs administrative and certain clinical duties under the direction of physician. Administrative duties may include scheduling appointments, maintaining medical records, billing and coding for insurance purposes. Clinical duties may include taking and recording vital signs and medical histories, preparing patients for examination, drawing blood and administering medications as directed by physicians.

Medical Technician: Examines and analyzes body fluids, tissue and cells. May perform routine or complex tests and procedures. Interprets results and relays them to physicians.

Nurse, LPN: Provides basic nursing care. Works under the direction of registered nurses and doctors.

Nurse, Registered: Assesses patient health problems and needs, develops and implements nursing care plans and maintains medical records. Administers nursing care to ill, injured, convalescent or disabled patients. May advise patients on health maintenance and disease prevention or provide case management. Licensing or registration required.

Nurse Manager/Unit Director: Plans and implements the overall nursing policies, procedures and services for a unit and/or shift. Generally manages nurses and clinical technicians. Relies on experience and judgment to plan and accomplish goals. Typically reports to an executive.

Nurse Practitioner: Diagnoses and treats acute, episodic, or chronic illness, independently or as part of a healthcare team. May focus on health promotion and disease prevention. May order, perform, or interpret diagnostic tests such as lab work and x rays. May prescribe medication. Must be registered nurses who have specialized graduate education.

Occupational Therapist: Treats injured, ill, or disabled patients through the therapeutic use of everyday activities. Helps these patients develop, recover, and improve the skills needed for daily living and working.

Pharmacist: Dispenses drugs prescribed by physicians and other health practitioners and provides information to patients about medications and their use. May advise physicians and other health practitioners on the selection, dosage, interactions, and side effects of medications.

Physician Assistant: Practice medicine as part of a team with physicians, surgeons, and other healthcare workers. Examines, diagnoses and treats patients. Also known as PA.

Physical Therapist: Assesses, plans, organizes, and participates in rehabilitative programs that improve mobility, relieve pain, increase strength, and improve or correct disabling conditions resulting from disease or injury.

Radiological Technologist and Technician: Takes X-rays and CAT scans or administers nonradioactive materials into patient's blood stream for diagnostic purposes. Includes technologists who specialize in other modalities, such as computed tomography and magnetic resonance.

HOUSEKEEPING

Housekeeper/Cleaner: Follows established procedures for cleaning and straightening rooms and disinfecting or sterilizing equipment and supplies.

Janitor: Performs cleaning and custodial activities in order to maintain the clean and orderly condition of the workplace.
